---

Brad, Craig is a friend of mine and he sits on the FBINAA board with me. He works for a company that works with public safety agencies to help manage incidents. He wanted to set up a meeting with us to give us an overview of what their company can do for us. If you have a point of contact that I can loop, I'll have PD staff schedule a meeting and ensure that your person/s are invited. Thank you.

Good Afternoon Sir,

It was really great to connect the other day and briefly catch up. I am so glad that you are doing well. I apologize, I was going to send this out the other day but got tied up with some family stuff with my dad that had to be taken care of.

Here are some brief details on LeoSight.com and I really think that this platform gives agencies significant options to get what they need and want without paying through the nose for it.

Some highlights:

LeoSight--an affordable, real-time public safety platform built specifically for **mid- and small-sized agencies**. Whether operating from an RTCC or in the field, LeoSight gives officers, fire personnel and incident commanders real-time access to the tools and information they need to act—not just observe.

Key benefits of LeoSight:

· Auto-activates nearby cameras during calls or LPR hits
· Field-ready: used by officers and commanders directly in critical incidents
· Secure, encrypted communication and tasking platform
· Unified view: cameras, LPRs, drones, CAD, AVL—all in one system
· Affordable and integration-friendly with your existing systems
· Metrics and playback tools for after-action reports and budget advocacy

Enhanced and modified for Public Safety (Not just Law Enforcement) by retired executive level police officers. We know police budgets and have priced our solution accordingly!

Let me know when I can schedule a demo to you, the Fire Chief, Emergency Manager, and the respective command staff from the different agencies. Presentations are usually an hour, give or take. If there are any agencies that you rely on for mutual aid, I suggest inviting them as well.
